

## When The World Revolves

Many fatal accidents that occur during the departure and approach phase of flight are often the result of low level Loss Of Control situations. Accident investigations reveal pilots often do not recognize that the aircraft is stalling because of preoccupation and the training methods they use.

**Directions:** The Kansas Technology Center is located at the corner of Ford and Rouse Streets in Pittsburg. Enter from the southwest corner of the building which is known as "flagpole entrance". The seminar will be located in Room S102.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
